Tim: PS: You once told me your laptop had a kill switch installed that would create problems for certain people if it were ever removed from your possession. That still the case?
me: you mean the info?
me: yep, there's lots of stuff of that nature
Tim: I thought you'd set up a system by which certain information would be made public.
me: oh, that was referring to certain info that has since been eclipsed by other info
me: and that laptop doesn't even work
me: the little one, it broke a while back, they'll still be able to get info off of it
Tim: Look on the bright side: getting raided has to help book sales, right? That project still going full-steam ahead?
me: indeed
Tim: I'll be following along at home, but do drop me a note when developments warrant.
me: k
